About Storage Mobility

Storage Mobility is the largest franchisee of Portable on Demand Storage, or PODS. Founded in 1998, PODS is rapidly becoming a leading provider of mobile mini-storage and moving for both residential and commercial customers. PODS revolutionized the moving and storage industry by developing a proprietary hydraulic lift system that enables it to deliver a storage container to a customer on a flatbed truck, detach the container from the truck and then gently, and vertically, lower it to the ground. By detaching the storage container from the truck, PODS enables its customers to save time, money and hassle.
