

FOR IMMEDIATE RELEASE

Storage Mobility to Open State of the Art Facility in Riverside, California

March 2007

SCOTTSDALE, Arizona – Storage Mobility, LLC (“Storage Mobility” or the “Company”), the largest franchisee of Portable on Demand Storage, or PODS, announced today that in April the Company will be opening a 68,000 square foot facility in Riverside, California, that will replace the Company’s current facilities in Riverside and Redlands. The new facility will have the capacity to house 700 to 800 PODS and will have state of the art video surveillance and security measures throughout.

David Schmeltz, CEO and President of Storage Mobility, said, “We are very excited about our new facility. We have been working on this project for over a year and are very proud of what we have accomplished.” Schmeltz continued, “With the new video surveillance system, our clients will be able to go online to view the facility at any time of the day. We are committed to providing the highest quality product and services to our customers and we believe providing peace of mind is one of the most important aspects.”

About Storage Mobility

Storage Mobility is the largest franchisee of Portable on Demand Storage, or PODS. Founded in 1998, PODS is rapidly becoming a leading provider of mobile mini-storage and moving for both residential and commercial customers. PODS revolutionized the moving and storage industry by developing a proprietary hydraulic lift system that enables it to deliver a storage container to a customer on a flatbed truck, detach the container from the truck and then gently, and vertically, lower it to the ground. By detaching the storage container from the truck, PODS enables its customers to save time, money and hassle.
